peter-cornelis 

Full-stack PHP developer with a passion for elegant code and innovative solutions. Fascinated by technology since childhood, I now channel that drive into bringing challenging projects to life. Solving problems and learning new things is what excites me. I bring that mindset to every project. Furthermore, I'm also the proud father of two little rascals.

## Skills

### Computer skills

HTML	    
CSS	    
SQL	    
Javascript	    
PHP	    

### Resilient

Setbacks are moments of growth, I persevere through them with dedication so that I can reap the reward later.

### Flexible

If needed I enjoy standing in for colleagues. A 9-to-5 mentality is not in my dictionary.

### Quality-oriented

Delivering work where I can be proud of, is my daily goal.

### Talenkennis
